BACKGROUND

Daffodil International University

Daffodil International University (DIU) is recognized in independent government assessments as one of top graded universities in Bangladesh. The university has been founded by Daffodil Group with the approval of the Ministry of Education under the Private University Act of 1992 and its amendment in 1998 and Daffodil International University came into being on 24th January 2002, the University today combines impressive modern facilities and a dynamic approach to teaching and research with its proud heritage of service and achievement.

To be among the very best in Bangladesh, which is the most challenging goal, has been set for the university. This has done so because it is only through working, we can achieve the very highest level of standards in curriculum, teaching, faculties and other activities that can realize the full potential of the academic community that is Daffodil International University. The vision reflects the service to the society. The mission is to pursue research, learning and teaching of international distinction for the benefit of the nation.

Features of the setup vision and mission are striving for excellence, integrity and innovation in every aspect of activity; a strong collaborative approach; open and effective communications and an inclusive culture based on dignity, courtesy and respect.

Daffodil International University's mission is defined by its IT-based traditions of service and access. The University is serving the citizens of the country through its instructions, research, and outreach programs and preparing Bangladesh to respond successfully to the challenges of global economy. The University has proved that it provides students broad access to the institution's

educational resources. (Possible suggestion: For educational programs in campus and beyond, the university is giving high priority on the use of new and outreach technologies available in the emerging information era.) The University has paid the highest priority to resource allocation to graduate and post graduate education and for future development of those areas that represent the traditional strengths, quality, reputation, and uniqueness of the institution which continue to effectively respond to the needs of students and other constituents. Consistent with this commitment, the university is emphasizing on high quality education including a comprehensive general education that imparts the broad knowledge, skills, and values which are essential to educate and make citizens responsible as well as to ensure specialized career preparation for students. In establishing the primacy of education, which is the institutional mission, the University is assuring the escalating strength of its faculty with the realization that the quality of instruction is directly related to the quality of the University's faculty and the commitment of the faculty to ensure excellence in education.

Atova Technology

Atova Technology is an initiative of the leading IT firm. We are making the right talents who are eligible to meet the business needs to create the professional environment that enables them to work at their level best. If you are looking for the best training center of outsourcing in Dhaka, then Atova Institute of IT is the right choice for you. Because we provide guaranteed service to establish in outsourcing marketplace. Due to the revolution in IT technology, it has become even more critical for people to master the technology to be creative, irreplaceable employees who optimize program and invent solutions, and even develop companies of their own.

Our mission is to develop the technical skills you need to be succeed in Information Technology (IT) Professional career. If you follow all our procedure and guidelines, you must get success in online outsourcing. We deliver more comprehensive and high-quality lessons, and train on the most recent products and technologies available, even a beginner can easily cop up everything.

দেশপ্রেমের শপথ নিন, দুর্নীতিকে বিদায় দিন

No matter if you are a student of polytechnic, college, university, or madrasah. No need to worry if you do not have knowledge on anything you want to learn. We are dedicated and committed to show you the right path to earning. We teach you from the very basic to advanced level. We care your dream rather than your money.

We believe that when it comes to the importance of computer training, you need to grow up true competence for the job you are intended to prepare for yourself, not just receive an overview of program syntax and techniques. The perfect way to grow up competence is to facilitate hands-on practice followed by practical experience. To build competence, confidence and clarity, our students spend a huge of their time in class performing structured hands-on lab exercises.

Atova IT Institute offers an extensive selection of training and certifications that helps you build a successful career on IT through attentive anticipation of your needs. Our real-time, cloud-based lab solution allows you to access the labs anytime and anywhere you want. Our advanced, fully configured live lab environment provides you hands-on access to the systems and applications trained in our classrooms and empowers you to learn on your own schedules. We bring the complete knowledge and information necessary for you to make the right decisions about what a computer can do for your career life.

Objectives of MoU

The objectives of the MoU are:

- To establish a collaboration between Daffodil International University (DIU) and Atova Technology.
- Ensuring quality learning to meet the industry requirement.
- To develop the skills of DIU ICE students to increase the employability.

Technical Areas of Collaboration

1. Industry-standard Information Communication Technology (ICT) related modern technology education.
2. Industry visits of both students and teachers.
