This MoU is entered into on the Date:

BACKGROUND:

Daffodil International University:

Daffodil International University (DIU) is recognized in independent government assessments as one of top graded universities in Bangladesh. The university has been founded by Daffodil Group with the approval of the Ministry of Education under the Private University Act of 1992 and its amendment in 1998 and Daffodil International University came into being on 24th January 2002, the University today combines impressive modern facilities and a dynamic approach to teaching and research with its proud heritage of service and achievement.

To be among the very best in Bangladesh which is the most challenging goal, has been set for the university. This has done so because it is only through working we can achieve the very highest level of standards in curriculum, teaching, faculties and other activities that can realize the full potential of the academic community that is Daffodil International University. The vision reflects the service to the society. The mission is to pursue research, learning and teaching of international distinction for the benefit of the nation.

Features of the setup vision and mission are striving for excellence, integrity and innovation in every aspect of activity; a strong collaborative approach; open and effective communications and an inclusive culture based on dignity, courtesy and respect.

Daffodil International University's mission is defined by its IT-based traditions of service and access. The University is serving the citizens of the country through its instructions, research, and outreach programs and preparing Bangladesh to respond successfully to the challenges of global economy. The University has proved that it provides students broad access to the institution's educational resources. (Possible suggestion: For educational programs in campus and beyond, the university is giving high priority on the use of new and outreach technologies available in the emerging information era.) The University has paid the highest priority to resource allocation to graduate and post graduate education and for future development of those areas that represent the traditional strengths, quality, reputation, and uniqueness of the institution which continue to effectively respond to the needs of students and other constituents. Consistent with this commitment, the university is emphasizing on high quality education including a comprehensive general education that imparts the broad knowledge, skills, and values which are essential to educate and make citizens responsible
