BACKGROUND:

Daffodil International University:

Daffodil International University (DIU) is recognized in independent government assessments as one of top graded universities in Bangladesh. The university has been founded by Daffodil Group with the approval of the Ministry of Education under the Private University Act of 1992 and its amendment in 1998 and Daffodil International University came into being on 24th January 2002, the University today combines impressive modern facilities and a dynamic approach to teaching and research with its proud heritage of service and achievement.

To be among the very best in Bangladesh which is the most challenging goal, has been set for the university. This has done so because it is only through working we can achieve the very highest level of standards in curriculum, teaching, faculties and other activities that can realize the full potential of the academic community that is Daffodil International University. The vision reflects the service to the society. The mission is to pursue research, learning and teaching of international distinction for the benefit of the nation.

Features of the setup vision and mission are striving for excellence, integrity and innovation in every aspect of activity; a strong collaborative approach; open and effective communications and an inclusive culture based on dignity, courtesy and respect.

Daffodil International University's mission is defined by its IT-based traditions of service and access. The University is serving the citizens of the country through its instructions, research, and outreach programs and preparing Bangladesh to respond successfully to the challenges of global economy. The University has proved that it provides students broad access to the institution's educational resources. (Possible suggestion: For educational programs in campus and beyond, the university is giving high priority on the use of new and outreach technologies available in the emerging information era.) The University has paid the highest priority to resource allocation to graduate and post graduate education and for future development of those areas that represent the traditional strengths, quality, reputation, and uniqueness of the institution which continue to effectively respond to the needs of students and other constituents. Consistent with this commitment, the university is emphasizing on high quality education including a comprehensive general education that imparts the broad knowledge, skills, and values which are essential to educate and make citizens responsible as well as to ensure specialized career preparation for students. In establishing the primacy of education, which is the institutional mission, the University is assuring the escalating strength of its faculty with the realization that the quality of instruction is directly related to the quality of the University's faculty and the commitment of the faculty to ensure excellence in education.

Amber IT Limited:

Amber IT Limited (https://www.amberit.com.bd)is a leading Internet, Data Connectivity, and IP Telephony Service Provider with the largest coverage in Bangladesh. It was formed in 1997 by the name of Dhakacom Limited. In 2015 it was rebranded to Amber IT Limited to reflect upon its parent company *AMBER GROUP* which is one of the largest conglomerates with many diversified businesses in Textiles, Particle Boards, Lifestyle Shopping, Leisure Resorts, Media, Entertainment, Telecommunications, and IT. With a humble start with Dial-UpServices, today Amber IT Limited is a leading Broadband Internet, Data and IP Telephony Services. It is a market leader in Information Technology Solutions and Services in Bangladesh.

Amber IT Limited has come a long way since its establishment in 1997. From small beginnings as a Provider of Dial-Up &Radio Link Internet access to Local Businesses, we have grown consistently and organically as a communications Provider serving a diverse portfolio of business class Voice and Data Services.

We are dedicated to serving Customers. We achieve this not only through our extensive Portfolio of Internet/Data Connectivity, IP Telephony and related Services but also by simplifying the process of ordering, provisioning, and supporting them. Amber IT is a concern of Amber Group, a conglomerate comprising 20 companies across diverse industries.

Amber IT Limited sets out to do the things our Customers want in an Internet Service Providing Company. Which is to provide the most reliable Service, coupled with the most sophisticated and modern equipment available.

We envision a world with ease of access and with hassle-free Service. We are striving to be an exceptional citizen in the virtual frontier.
