Subject: Application for Solo Capstone Project Completion

Respected Sir,

I respectfully seek permission to pursue my capstone project on a solo basis. Despite sincere efforts, I have encountered difficulties in forming a group with peers who share similar project goals and levels of commitment.

In order to ensure timely completion of the project while maintaining its quality, I wish to proceed with the project on a solo basis. I am committed to following all academic guidelines and will take full responsibility for the successful completion of the project.

I would be sincerely grateful for your kind approval and support in this regard. Thank you for your time and consideration. I look forward to your positive response.

Sincerely,
Faria Sanzana
ID: 221-50-110

She is very passionate with the project. She almost completed the basic learning of programming regarding this. All efforts were her solo effort. I am guiding her on the project. Aparently she completed almost 35% activities of this project. I am requesting to allow her for completing solo capstone project.

Respected Sir,

I am requesting permission to complete my capstone project solo due to difficulties in forming a group. Despite my efforts, I faced challenges in finding team members with similar project goals and commitment levels. To ensure I complete my project on time and maintain quality, I would like to work on it individually.

I will follow all academic guidelines and complete the project responsibly. I kindly ask for your approval and support. Your consideration would be greatly appreciated.

Subject: Application for Changing Capstone Project Topic to "AI Paralegal"

Respected Sir,
We, the students of the Department of Information & Communication Engineering, would like to formally request a change in our capstone project topic. After careful consideration and further exploration of current industry trends, we have decided to change our project topic to "AI Paralegal: Automating Legal Assistance with Artificial Intelligence."

This decision is driven by our growing interest in the intersection of law and technology, as well as the immense potential that AI holds in transforming legal support services. Our proposed project will focus on developing an intelligent system capable of assisting with legal research, document summarization, and preliminary case analysis. We believe this new topic aligns more closely with our interests and skillsets, and will enable us to make a meaningful contribution to this emerging field.

We kindly seek your approval to proceed with this revised topic. We assure you that we will meet all project requirements and deadlines as per university guidelines.

Sincerely,

Md Ferdous Hasan

Subject: Request for approval to change the capstone project title.

Respected Sir,

With due respect,we,**Tithi Tarafder** (ID:221-50-086) and **Faria Sanzana** (ID:221-50-110), students of the Information and Communication Engineering (ICE) department, humbly request your approval to change the title of our capstone project.

The previous title was: "Developing User Similarity Computation Strategy for Collaborative and Content-based Filtering using Word Sense Disambiguation Technique". The new proposed title is: "An Interpretable Transformer-based Architecture for Detecting Bangla Depressive Social Media Text".

This modification, recommended under the guidance of our supervisor, Md Istakiak Adnan Palash, Lecturer, Department of ICE, DIU more precisely defines our project's objectives and methodology.

We kindly seek your official authorization for this change.

Sincerely,

Subject: Application for Changing Capstone Project Topic to "Heart Disease Risk Prediction and Monitoring System"

Respected Sir,

We, the students of the Department of Information & Communication Engineering, would like to formally request a change in our capstone project topic. After thoughtful discussion and further evaluation of our skills and interests, we have decided to select the topic "Heart Disease Risk Prediction & Monitoring System."

This project aims to combine IoT-based health monitoring with machine learning techniques to assess and predict heart disease risks. The system will utilize IoT sensors to collect real-time health data (such as heart rate and blood pressure), and apply a ml model to provide early risk predictions. We believe this topic is realistic and highly impactful in the context of healthcare innovation. We are confident that this project aligns with our technical expertise, academic background, and available resources.

We kindly seek your approval to proceed with this revised topic.

Sincerely,

Md Nazmul Hosen Bondon ID: 221-50-083

Subject: Request for approval to change the capstone project title.

Respected Sir,

With due respect, we, **Rebeka Sultana Shimu (ID:0242220005171023) and Rabiul Islam Ratul (ID:0242220005171016)**, students of the Information and Communication Engineering (ICE) department, humbly request your approval to change the title of our capstone project.

The previous title was: "Smart Classroom Energy Management System".The new proposed title is: "AI Powered Mock Interview System for Emotion and Confidence Evaluation".

This modification, recommended under the guidance of our supervisor, Md. Azizul Hakim, more precisely defines our project's objectives and methodology.

We kindly seek your official authorization for this change.

Sincerely,

Rebeka Sultana Shimu (ID:0242220005171023) Shimu

Respected Sir,

With due respect, we, MD. Rakibul Hasan Rakib (ID:0242220005171019) and Jerin Suva Labiba (ID:0242220005171020), students of the Information and Communication Engineering (ICE) department, humbly request your approval to change the title of our capstone project.

The previous title was: " Medical image disease detection X-ray/MRI classification with CNN". The new proposed title is "AI-Powered Early Mental Health Intervention Using Explainable Multi-Label Classification".

This modification, recommended under the guidance of our supervisor, Md. Azizul Hakim, more precisely defines our project's objectives and methodology.

We kindly seek your official authorization for this change.
